LUBLIN

Frame done in anodized aluminium

opening on the narrower side

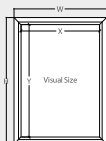

quick and simple poster change

INFORMATION

* W: Width H: Height D: Depth *mm

The Lublin frame is made of anodized aluminium. The change of graphic is really fast and easy, just insert your posters or graphics through the groove on the narrower side of the frame, this way, updating a presentation takes only a few seconds. Also, the screws and hangers for wall mounting are included. Lublin frame is ideal for restaurants, supermarkets, banks, movies theatres, airports, malls or any other location requiring frequent changes of posters.

ANADIA

INFORMATION

* W: Width H: Height D: Depth

The Anadia frame is constructed from aluminum and has a matte silver finish. Just beneath the extruded aluminum frame sides are spring clips that are responsible for the Click spring-loaded action. Once they are pressed between the face frame and internal channel, instant spring-loaded tension is achieved. Insert your posters or graphics on top of the back panel, replace the lens, and flip the sides down to hold everything in place, so updating a presentation takes only a few seconds. It can be mounted vertically or horizontally, depending on your sign or advertisement. We supply this frame with the necessary screws and hangers for wall mounting. This Frame is perfect for being used in restaurants, retail stores, community centers, movie theatres, airports, supermarkets, banks or any other location requiring frequent changes of advertisements.

ANADIA DOUBLE-SIDED

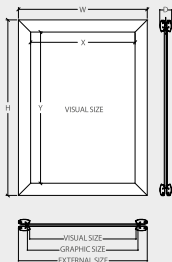

silver anodized
aluminium
finish

INFORMATION

* W: Width H: Height D: Depth

The Double-sided Anadia frame is constructed from aluminum and has a matte silver finish. It can be mounted vertically or horizontally, depending on your sign or advertisement. We supply this frame with the necessary screws and hangers for hanging. Insert your posters or graphics on top of the back panel, replace the lens, and flip the sides down to hold everything in place, so updating a presentation takes only a few seconds. This frame features 2 ways visibility, increasing advertisement exposure. Ideal for hanging in a storefront window to advertise the passersby and customers within their institution, also this frame has a location flexibility, so users are no longer restricted to walls for posting signage. Hanging signage systems from the ceiling allow for placement overhead, in a central location. With this better space utilization, these window displays leave wall space open for exhibiting other advertisements or objects, so it's perfect for using in stores, community centers, airports, supermarkets, etc.

RAINBOW FRAME

NEW

INCLUDES 4 GREY CORNERS AND 20 COLORED COVERS

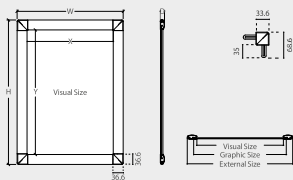

INFORMATION

* W: Width H: Height D: Depth *mm

The Rainbow aluminum frame features 4 grey corners + 20 colored covers. It has a 32mm width profile which features click closing system. Just beneath the extruded aluminum frame sides are spring clips that are responsible for the Click spring-loaded action. Once they are pressed between the face frame and internal channel, instant spring-loaded tension is achieved. Insert your posters or graphics on top of the back panel, replace the lens, and flip the sides down to hold everything in place, so updating a presentation takes only a few seconds. It can be mounted vertically or horizontally, depending on your sign or advertisement. Featuring 5 standard sizes available. Due to its elegant appearance the single-sided frame Rainbow is ideal for restaurants, hotels, theatres, offices, malls or any other location requiring a distinctive look on the frames or a frequent changes of posters. Also, Protective anti-reflection cover, screws and hangers are included.

IBAHERNANDO

double sided

32mm

revolving board

INFORMATION

This double-sided board is made of aluminum so it is lightweight and resistant thanks to its strong feet. It has a 32mm width profile with click system, so the graphic change is quick and simple. Features a revolving board and it includes a resistant antireflection sheet so is also non-glare which allows it to be read under bright lights. Ideal for using outside your restaurant, street stall or supermarket for advertising offers, promotions or sales.

BOAL

double
sided

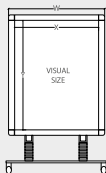

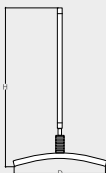

suitable for
outdoor use

INFORMATION

* W: Width H: Height D: Depth * mm

The double-sided board frame of Boal is made of aluminum and has a strong base and sturdy springboard design, allowing flexion in windy conditions. It has a 34mm width profile with click system, so the graphic change is quick and simple. Features a 2-sided board frame and it includes a resistant antireflection sheet so is also non-glare which allows it to be read under bright lights. Bad weather deters foot traffic for most venues, but these sidewalk signs will give you the advantage of letting passersby know you're open-regardless of the weather conditions. Ideal for displaying outside your event, restaurant, street stall or supermarket for advertising offers or temporary exhibitions.

The Arcachon Board is a great way to draw attention from the street. This Click Board is designed especially for outdoor use, it is made from durable materials for a stable and long-lasting construction. The heavy-duty, molded plastic base features a screw-in cap and can be filled with 24l of water for 10.341 and 10.115 models and 52l for 10.116 and 10.342. Also it has a 42mm width waterproof profile with click system, so the graphic change is quick and simple. It includes a weather resistant antireflection sheet so it is also non-glare which allows it to be read under bright lights. Built-in wheels also make this board easy to move as needed. To further enhance its stability Arcachon features rugged springs to reduce the impact of wind. With all these characteristics this waterproof Click Board is ideal for displaying outdoor your restaurant, street stall, event or supermarket for advertising offers or any temporary exhibition.

Mikonos features a lightweight aluminum structure with a refillable plastic base that assembles in seconds (it is 3.95kg weight and it can be filled with 17l of water). Also, the Textile Boards are also simple to setup. All the aluminium poles fit together and snap into base. Simply stretch the wrap over the completed base and it's ready to use. The aluminium structure is affixed to the base with 2 large springs, so it stays stable in windy conditions. Built-in wheels also make this board easy to move as needed. Carrying bag is included for an easy storage and transportation. Denote your business with the innovative design and versatility of textile printing. Ideal for trade shows or promotional events. The Mikonos outdoor board is ideal for being used at heavily-trafficked areas such as tradeshows, events, stores or malls.

LEINSTER

INFORMATION

* W: Width H: Height D: Depth * mm

The Leinster double-sided display is built from sturdy, durable aluminum frame. With an easy-to-use snap frame and edge-lit LED bulbs, Leinster lightbox stand is useful for darker venues, such as halls and movie theaters. The convex holder helps graphics pop out, ensuring that the double sided poster display can be seen from any angle. Designed for day or night time use, the illuminated lightbox stand has clear PVC lens to prevent glare, while the LED bulbs highlight signage.

YUCATAN

LED

INFORMATION * W: Width H: Height D: Depth * mm

This window hanging light box for daily use combines the power of LED illumination technology with the elegance of a thin profile. The frame on each model is 17.8mm thick, making it one of the slimmest marketing devices currently available. Small LED bulbs in the sides of the window hanging light box frame prevents against "hot" and "cold" spots appearing on the graphics. The diffusion pattern within the lightbox makes sure that the beams shed evenly over the images. Users can also adorn this LED signage to the wall. The thin window hanging light box showcases posters and graphics in either landscape or portrait orientation.

COMBI

EN	Full set of holders of easy assembly. The displays "Combi" are supplied in complete Kits. Made of aluminum and steel.
FR	Support porte brochures en aluminium et métal. Assemblage facile, plusieurs configurations sont possibles.
PT	Sistema completo de porta-folhetos e/ou marcos. Os display fornecem-se em kits completos. Fabricados em alumínio e aço.
ES	Sistema completo de portafolletos y/o portagráficas. Los displays se suministran en Kits completos y están realizados en aluminio y acero.

INFORMATION

* W: Width H: Height D: Depth * mm

The Combi Display system consists of an aluminum pole profile, a solid 8kg base and multiple possible configurations to choose from, featuring the number of literature holders (1-8 units), the possibility of incorporating one or more click system frames (different sizes available) or the possibility of adding a double-sided design. Each of the 4 literature trays can hold either 2 units of A4 sized brochures or 1 extra wide magazine. The Combi Displays are ideal for trade shows, lobby areas, hotel lobbies, shopping malls or for the gymnasium.

ALUMINIUM
LECTERN

NEW

* W: Width H: Height D: Depth * mm

INFORMATION

* W: Width H: Height D: Depth * mm

This aluminium lectern includes a 19mm thick white wooden reading surface with a matching aluminium post and circular base offering modern visual displays. The reading surface on this lectern includes a book stop to support your notes during a presentation for award recipients, sheet music for a performance, or a seating chart to assist a hostess, also it features an adjustable angle view for the reading surface. With its sleek contemporary design, this podium is easy to assemble, requiring only a screwdriver and a few minutes. Its silver aluminium pole and base are durable and will last through years of performances and presentations. This stylish yet affordable lectern is a great addition to any presentation space, such as auditoriums, restaurants for menu displays or convention centers to attract the attention of your audience.

OPTIONAL ACCESSORY

The back of the surface of this Lectern provides the possibility of attaching an Alulon Poster System (Ref: 10571) to place a banner and customize the look of the lectern. For more information, see the article in chapter 1 of this catalog.

INFORMATION

Sahagun is designed to be mobile and compact. It has a zigzag design that folds down into a small unit. Featuring 5x4A format literature holders for displaying. The literature holders provide a multi-level display system with an unobstructed view of magazines, brochures or any other periodicals you wish to display, also it is very lightweight thanks to its aluminium structure and acrylic holders. This brochure stand folds up into a small, light weight unit. For a simple transportation you can choose between the nylon carry-bag or the deluxe briefcase option, which has reinforced foam padded. Use this portable literature stand as a single or double sided display at trade shows, retail outlets, or showroom floors to attract customers looking for additional information.
